**EXHIBIT A**

**For purposes of this Agreement, "2010 ADAAG standards" refers to the ADA Accessibility Guidelines 28 C.F.R. Pt. 36, App. A.**

**The following modifications are to be made by Defendant NICK M. CORDOVA:**

- (i) The total number of accessible parking spaces shall be modified in accordance with section 208.2 of the 2010 ADAAG Standards. At least one accessible parking space shall be a van accessible parking space in compliance with section 502.2 of the 2010 ADAAG Standards and be identified as a van accessible parking space in compliance with section 502.6 of the 2010 ADAAG standards.
- (ii) All accessible parking spaces shall fully comply with section 502 of the 2010 ADAAG standards.

**The following modifications are to be made by Defendant CHARCO BROILER STEAK HOUSE #2, INC.:**

- (iii) The door exiting the restroom area shall be modified, so it has adequate maneuvering clearance in compliance with section 404.2.4 of the 2010 ADAAG Standards. Often, this is accomplished by switching the hinge side of the door and changing it from a pull to a push.
  - If the cost of modifying the door to the restroom to provide adequate maneuvering clearance exceeds \$4,000.00 or is not technically feasible, after providing Plaintiff's counsel with notice of such cost or infeasibility, it is agreed it is not readily achievable to modify the door to the restroom to provide adequate and proper maneuvering clearance in compliance with section 404.2.4 of the 2010 ADAAG standards. As a readily achievable alternative, Defendant shall install a push-button automatic door opener to access the restroom.

**RESTROOMS**

- (i) Signage shall be posted adjacent to each accessible restroom door in compliance with sections 216.8 and 703 of the 2010 ADAAG Standards.
- (ii) The clear width of the door to the accessible restroom shall be modified, so the minimum clear width is 32 inches and in

- compliance with section 404.2.3 of the 2010 ADAAG Standards.
- (iii) The door hardware to the restroom doors shall be modified, so the door hardware complies with section 309.4 of the 2010 ADAAG standards.
  - (iv) The door to the restroom shall be modified, so it has adequate maneuvering clearance in compliance with section 404.2.4 of the 2010 ADAAG Standards. Often, this is accomplished by switching the hinge side of the door and changing it from a pull to a push.
    - If the cost of modifying the door to the restroom to provide adequate maneuvering clearance exceeds \$4,000.00 or is not technically feasible, after providing Plaintiff's counsel with notice of such cost or infeasibility, it is agreed it is not readily achievable to modify the door to the restroom to provide adequate and proper maneuvering clearance in compliance with section 404.2.4 of the 2010 ADAAG standards. As a readily achievable alternative, Defendant shall install a push-button automatic door opener to access the restroom.
  - (v) At least one (1) sink in each accessible restroom shall be modified, so it has adequate knee and toe clearance in compliance with section 306 of the 2010 ADAAG Standards.
  - (vi) Grab bars shall be installed adjacent to the accessible toilets in the restroom and the grab bars shall comply with section 609 of the 2010 ADAAG standards and shall be configured in a manner consistent with section 604.5 of the 2010 ADAAG standards.
  - (vii) The height of the paper towel dispenser or other hand drying device shall be modified, so its actionable mechanism has a maximum height of 48 inches above the finished floor.
  - (viii) The height of the mirror shall be modified, so the bottom edge of the reflective surface of the mirror has a maximum height of 40 inches above the finished floor.
  - (ix) A minimum sixty-inch diameter circular clear turning space shall be provided in the restroom compliant with section 603.2.1 of the 2010 ADAAG Standards. If the cost of providing clear turning space exceeds \$3,000.00 or it is not technically feasible to meet this standard, after providing Plaintiff's counsel with notice of such cost or infeasibility, it is agreed it is not readily achievable to modify the clear turning space in the restroom to full compliance with section 603.2.1 of the 2010 ADAAG Standards.
    - As a readily achievable alternative, Defendant shall modify the clear turning space in the restroom to the maximum extent technically feasible that would cost less than \$3,000.00. If Defendant opts for the readily achievable alternative, Defendant shall provide Plaintiff's counsel with notice of the alternative and at least one estimate of the cost

of full compliance showing it is above \$3,000.00 or is technically infeasible.

#### ALTERNATIVE RESTROOM

In the event it is not technically feasible to make both the men and women's restroom accessible or if the total cost of doing so exceeds \$8,000.00, after notifying Plaintiff of such technical infeasibility and/or cost, it is agreed it is not readily achievable to modify both restrooms so they are both fully compliant with sections 603, 604, 605 and 606 of the 2010 ADAAG standards. As a readily achievable alternative, Defendants shall designate a single restroom at the Property they will modify so that the new accessible restroom is fully compliant with sections 603, 604, 605 and 606 of the 2010 ADAAG Standards ("new accessible restroom"). The new accessible restroom shall be fully compliant with sections 603, 604, 605 and 606 of the 2010 ADAAG Standards and be on an access route. This new restroom shall be a single use unisex accessible restroom.
